

Agenda

March 8, 2010

Call to order

Approval of February meeting minutes

Treasury Update – Bob

Discussion Topics for Hugh Valiant

Fish Grates –

Are they worth our effort?

Fish population –

Do we know how healthy the fish population is?

When was it last surveyed?

Any positive or negative observations from the last survey?

Current and future plans for stocking efforts?

Would there be any benefit to additional private stocking initiatives?

Rough Fish-

Is seining supposed to help eradicate rough fish or support a commercial fishery business?

Is the level of rough fish a concern? Is greater emphasis on their reduction warranted?

Winterkill / Oxygen Levels-

What is the current oxygen level?

Are the aerators efficient / sufficient / effective?

With better water quality can native vegetation help prevent low oxygen levels?

Open Q&A session for Hugh Valiant
